### Personal Summary

I am a graduate of Generation's Junior Software Developer Bootcamp looking for a full stack developer position. I have 5+ years of work experience in retail customer services. Which allowed me to develop communication, negotiation, teamwork and coordination skills. I am eager to apply my previous work experiences and newly developed technical skills to launch my career in the tech sector.

### Experience

#### Junior Software Developer Bootcamp Cohort 5 (July 2023 - Oct 2023)

Generation Thailand

- Learned how to build web applications from React as front-end, Node.js as back-end, and MongoDB as a Database.
- Learned essential skills for switching careers, such as growth mindset, communication, agile, and teamwork.
- Created a project use MERN stack with team.

This project is an application website which service user for their sport activity. In front-end, We used React with React-router and Axios as the main dependency. In the back-end, it uses Express to manage RESTful API. Finally, using Mongoose to connect MongoDB database.

#### Store Manager (Jan 2019 - Dec 2021)

7-ELEVEN Convenience Store

- Collaborated with warehouses and suppliers to track and control product quality.
- Conducted quality checks on all products before delivering them to customers.
- Prepared monthly plans and established team goals.
- Adapted the work plan based on the current situation.
- Managed internal and external pressures.
- Efficiently managed time to ensure successful plan execution.

#### Assistant Store Manager (Nov 2017 - Jan 2019)

7-ELEVEN Convenience Store

- Managed team tasks towards common goals and ensured goal adherence.
- Supervised team members, maximizing their preparedness for work.
- Maintained order, safety, and equipment availability in the store.
- Addressed and resolved initial customer problems and complaints prior to escalation.

#### Sales Clerk (Nov 2016 – Nov 2017)

7-ELEVEN Convenience Store

- Delivered exceptional customer service while handling a high volume of customers.
- Handled payments for goods or bills and provided advice on various promotions.
- Organized store products using the first in, first out principle.
- Kept updated on new products or services to enhance customer assistance.
